County Council

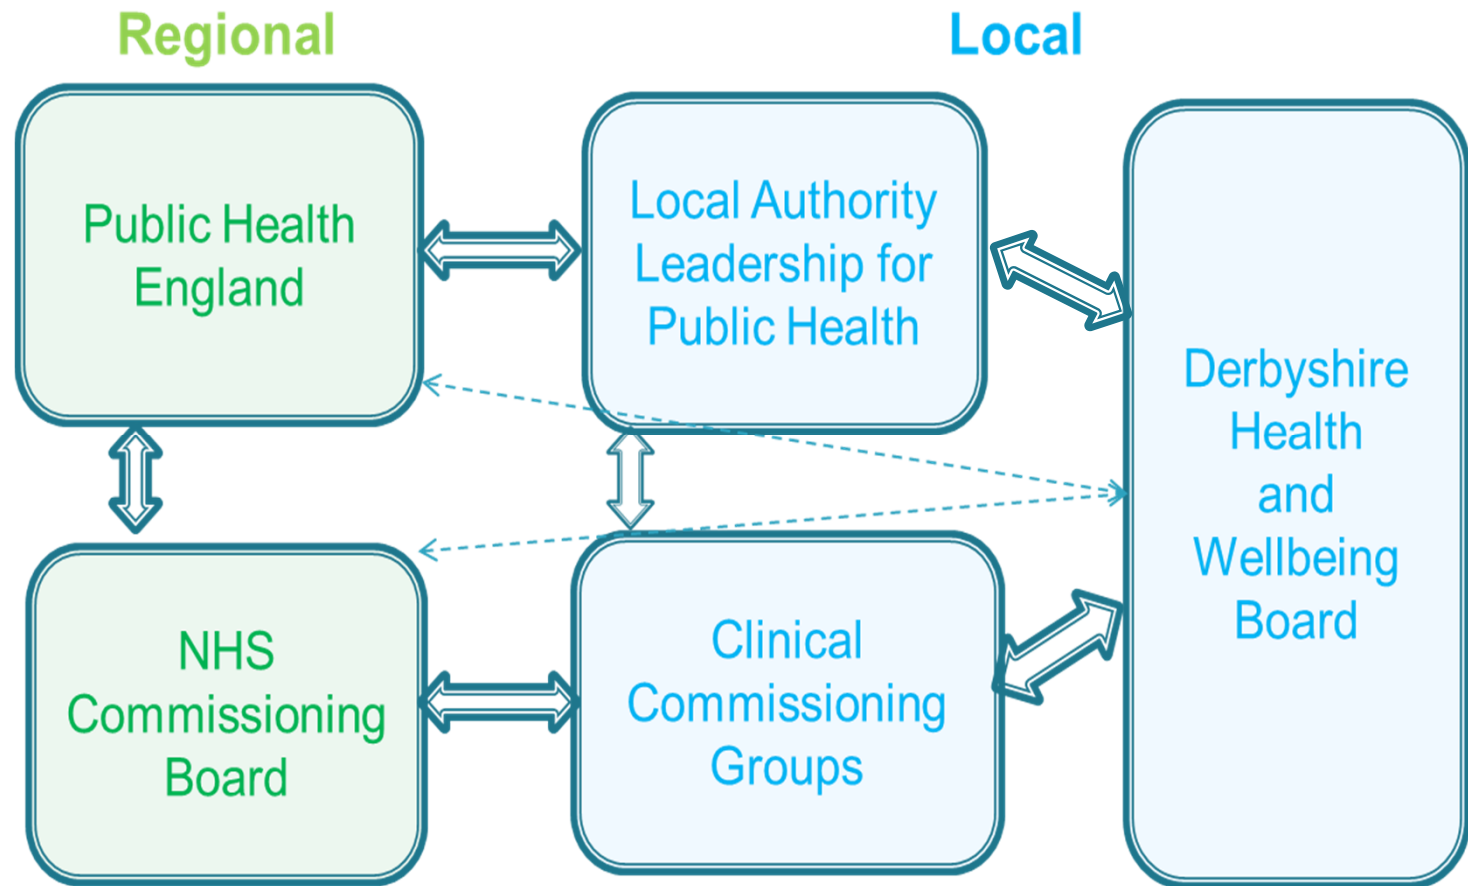

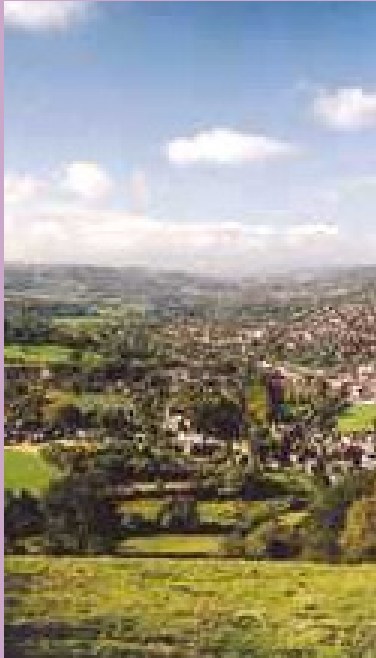

Public health and NHS Reforms

Elaine Michel
Director of Public Health

Structures

Derbyshire
County Council

Local government leadership

Local government should lead for public health because of its:

- ▶ **population focus**, as the democratically accountable stewards of local health and wellbeing
- ▶ role as the **shapers of place**
- ▶ ability to address many of the **wider social determinants** of health, and
- ▶ experience of, and ability to tackle, **inequalities** in health.

Local government's new functions

New duty to improve the health of the population:

- ▶ commissioning services from a range of providers
- ▶ working with Clinical Commissioning Groups to integrate care pathways
- ▶ using the Health and Wellbeing board to integrate commissioning approaches
- ▶ providing population healthcare advice to the NHS
- ▶ duty to ensure plans in place to protect health.

Local political leadership critical to making this work

Local authority commissioning responsibilities

- Tobacco control & smoking cessation
- Alcohol and drug misuse
- Services for children 5-19
- National Child Measurement Programme*
- Obesity and weight management
- Local nutrition services
- Increasing physical activity

- NHS Health Checks*
- Public mental health services
- Dental public health
- Injury prevention
- Birth defect prevention
- Behavioural and lifestyle campaigns to prevent LTCs
- Local initiatives on workplace health

- Support and challenge of NHS services (vaccination and screening)
- Public health advice to the NHS*
- Sexual health services*
- Seasonal mortality initiatives
- Local role in health protection incidents*
- Community safety
- Social exclusion

* Indicates mandated services

Role of the Director of Public Health

- ▶ **Leadership role** within the local authority for the DPH and their team, to exercise these new functions:
 - DPH should be the lead officer for health and championing health across the whole of the authority's business
 - we expect there to be direct accountability between the Director of Public Health and the local authority Chief Executive for the exercise of the local authority's public health responsibilities
 - the DPH should have direct access to elected members
- ▶ Produce an **Annual Report on the health of the population**
- ▶ Statutory member of the **Health and Wellbeing Board** – and engaging across the health and wellbeing system.

Population health advice to the NHS

- ▶ To support healthcare commissioners, including via the Joint Strategic Needs Assessment, with strategic population data from many sources
- ▶ Applying skills to interpret data
- ▶ Advice at all stages of the commissioning cycle alongside:
 - advice from new commissioning support organisations, which will focus on processes and clinical systems
 - Public Health England (PHE) role through an information and intelligence service to LAs e.g. by providing baseline data
- ▶ Further work taking place on how this advice will meet the needs of CCGs and appropriate challenge of commissioning intentions

Public Health England's role

Derbyshire
County Council

delivering services

- deliver specialist public health services to national and local government and the NHS
- deliver information and intelligence service to support effective action, locally and nationally
- support the commissioning and delivery of effective health and care services and public health programmes
- design and deliver nationwide communications and interventions to support the public to protect and improve their health

leading for public health

- encourage transparency and accountability across the system
- support public health policy development through evidence and advice on the best operational means to achieve strategic goals
- allocate its budget and manage relationships effectively to
- work with partners to build the evidence base about what works in improving and protecting health and wellbeing
- act for public health science and delivery on the international stage

workforce

- Public Health England will support the development of the specialist and wider public health workforce

NHS Commissioning Board

- ▶ Will have a sub regional structure at a Derbyshire/Nottinghamshire level
- ▶ Responsible for development and assurance of CCG's
- ▶ Responsible for delivery of screening programmes on behalf of PHE, offender and military health, 0-5 children's public health, emergency resilience
- ▶ Direct commissioning of primary care including GP's, dentists, pharmacy and some optical services
- ▶ Specialised commissioning

Derbyshire Health & Wellbeing Board

- ▶ Define the Board's role
- ▶ Ensure robust governance systems and structures are in place
- ▶ Focus on priorities to improve and protect the health & wellbeing of local people
- ▶ Develop the core values and principles that will underpin our work
- ▶ Ensure community engagement and effective engagement with partners and stakeholders

Derbyshire Health & Wellbeing Board

- ▶ Assess the needs of the population through the Joint Strategic Needs Assessment (JSNA)
- ▶ Agree and produce a Joint Health and Wellbeing Strategy to address needs, which commissioners will need to have regard to in developing commissioning plans for health care, social care and public health.
- ▶ Promote joint commissioning
- ▶ Promote integrated provision, joining up social care, public health and NHS services with wider local authority services.
- ▶ Engage in the development of CCG commissioning plans.
- ▶ Provide advice to the NHS Commissioning Board in authorising and assuring CCG's
- ▶ Continue the policy focus on patient choice, quality and growing the role of the independent/voluntary sectors etc.

Local health & wellbeing priorities

- ▶ Improve health and wellbeing in early years: every child fit to learn and to attain the highest levels of literacy
- ▶ Promote healthy lifestyles: helping all people to live healthier lives and reducing harmful effects of *alcohol consumption*, substance misuse, *obesity*, *physical inactivity*, smoking and sexual ill health
- ▶ Emotional and mental health and wellbeing: helping people to live fulfilled and happy lives and feel good about themselves. Also better access to mental health services

Local health & wellbeing priorities

- ▶ Long term conditions and carers: supporting people to keep their independence. Especially people with on-going health issues and providing support for carers
- ▶ Older people: improving health and wellbeing of older people and promoting independence into old age. Focus on integrated working between health, social care, housing and other community services in all sectors

Future of public health
